

Tiguan.

Highlights.

Head-up Display*

Access important information like trip data and alerts on a high-quality screen positioned in front of the windscreen, directly in the driver's field of vision.

Active Info Display

A fully digital instrument cluster presents data and information about the vehicle directly in the cockpit.

Adaptive Cruise Control*

To help avoid accidents, the intelligent Adaptive Cruise Control system keeps you at a safe distance from the vehicle in front while maintaining cruise speed.

Park Distance Control with rear view camera

Get a better view of what is behind your car so you can easily identify obstacles. Aids in parking and makes rearward manoeuvres easier.

3-zone 'Air Care Climatronic'

Set different temperatures for the driver, front and rear passengers for maximum comfort. Its biogenic filter, unique to the SUV segment, helps prevent pollen and allergens from entering the cabin.

App-Connect

Two innovative technologies allow you to integrate selected smartphone apps onto your infotainment system's touchscreen: Android Auto™ and Apple CarPlay™.

'Easy Open' sensor-controlled tailgate

No hands free? No problem. The 'Easy Open' function makes it easy to open the tailgate even when your hands are occupied. And with 'Easy Close', all you have to do is press a button to close the tailgate.

Panoramic sunroof*

Soak in the fresh air and sunlight on your journey with the Tiguan. The sunroof is also the largest in its segment.

*Available on the Tiguan R-Line

Safety.

Active bonnet

The active bonnet system reduces the risk of injury to pedestrians and cyclists by lifting upwards (50 mm within 22 ms) in the event of an impact.

Front Assist with City Emergency Brake

Traffic ahead is often unpredictable. In the Tiguan, the 'Front Assist' ambient traffic monitoring system can help you identify situations early on where the distance to the vehicle in front is critical.

Technical data.
